- 1. Nursing Home Costs:** It's a terrible day when you realize someone you love can't live on their own any longer. Traditional estate plans won't help. Learn what you can do now to be prepared if you or someone you love is diagnosed with Alzheimer's or a disease that requires long-term care, and how you can help protect your home and your savings from \$9,000-\$12,000 per month in nursing home bills.
- 2. IRA/401k Inheritance Protection:** Your IRA may be your biggest asset. Learn how the Secure Act and Secure Act 2.0 changed how your children must handle your IRA after you die.
- 3. Family Worries:** Everyone knows someone who's family has been torn apart after the death of a loved one. Learn what you can do now to help keep the peace in your family after you are gone.
- 4. Divorce & Remarriage:** How to safeguard your children's inheritance if they get divorced. Up to 50% of your assets could walk out the door with your ex in-law!
- 5. Money Worries:** How to plan for special needs kids and grandkids, and how to protect your children's inheritances from debts, taxes, lawsuits, medical expenses, and irresponsible lifestyles.
- 6. DIY Estate Plan Failures:** Why adding your kids to your house and your accounts can be a terrible idea, for you and for them!

**No matter where you are in life, there's still time to do better!**

**Learn how to safeguard what you have today and what you leave to your kids and grandkids tomorrow.**
